**NATIONAL SEMINAR
ON
“Biodiversity and its
Conservation through
Traditional Knowledge
System with reference to
Uttarakhand**

7 October, 2023

INTRODUCTION

Uttarakhand is one of the Himalayan States which is blessed with richness of Biological diversity in terms of both faunal as well as floral community. Uttarakhand state covering Kumaun and Garhwal Himalayan region is known for its rich cultural heritage and strong Traditional Knowledge System (TKS).

Traditional Knowledge System (TKS) not only conserve the biodiversity but also work to conserve the other Environmental components.

In last few decades, due to less documentation, urbanization and modernization, such knowledge systems are getting depleted. Therefore, it is the time for a collective action to make a strategy to conserve the biological diversity and ecological systems.

OBJECTIVES OF WORKSHOP:

The National Seminar on “Biodiversity and its Conservation through Traditional Knowledge System with reference to Uttarakhand” will provide common platform to academicians, scientists and researchers for a healthy discussion on various issues related with the theme. The Seminar will provide the basic to advance knowledge about the tools and techniques with reference to Biodiversity Conservation which is the matter of great concern now a days.
